

# Your Impact

Since 2021, you have donated 490 textbooks and manuals in English and French languages. Of those 490 donations, 120 contain subject areas conducive for elementary school and 300 for secondary school students. 70 of those educational manuals are in English-language educational books for kindergarten, elementary and secondary school students.

# MOBILE LIBRARY Initiative

**ASK US MORE!**

**DONATE NOW!**

## About Our Initiative

Our MOBILE LIBRARY will provide access to a variety of reading materials to children and educators in low-income schools starting in the city of Kinshasa and further expanding to other areas in need throughout the DRC. This library will also provide a space for learning and exchanges through reading and technology.

Our campaign aims at purchasing a small vehicle that will provide regular access to our current 6 partner schools located in different school districts of Kinshasa.

## Why technology?

Why invest in technology for our cause? The children and educators we serve lack crucial resources, hindering their ability to compete with other more resourceful schools. The pandemic emphasized the urgent need for basic tech skills. Our team decided to craft modules to teach basic technology skills in the educational context of our mobile library. We always need more help and by contributing to provide essential technological tools, we can bridge this digital gap as a key to creating a brighter future for our children.

**EMPOWER THEM**

## Innovative mindset

These communities lack resources, have limited knowledge and exposure. By bringing a library to them, we aim to spark curiosity and foster an innovative mindset. This library will provide access to books beyond their curriculum, expanding young minds to diverse topics, empowering individuals to aspire to professions beyond their current environment. We aspire to be a catalyst for change and broaden horizons with the gift of knowledge.
